MAPA FAMILY TREE
Ver 2 – 24 Jul 2011
of Negros Oriental & Occidental and Iloilo

which includes members from other clans such as:

- Villanueva
- Rigor
- Mondragon
- etc

INTRODUCTION:

This is one of the standard print-outs of the Family Tree Maker Genealogical Software.

The print-out is generated from data we encoded into the database from the PDF files sent by Ron Jacob Calumpang, who in turn got the data from the website <mapa.tribalpages.com>. Prior to this, Cidni Mapa gave some details of immediate relatives. All these were merged with earlier information in the database gathered over the years from other sources, which among others, included hardcopy and electronic copies of family trees volunteered for this genealogical project, such as public domain sources on the internet, interviews, research, etc. Shortly after posting, some members of the Mondragon clan San Carlos City contacted us and volunteered their family tree, which filled in some gaps.

Unique in this database is that each individual has been assigned a birth year, which is an educated guess based on date interpolation using logical assumptions of sibling spacing, and child-bearing years. Such dates are prefixed by Abt (about). Where the exact date is known, the birth years of the siblings, parents and children are adjusted accordingly.

The genealogical project is to trace the inter-relational linkages between major families by bloodline and marriage.

The format of the print-out is as follows:

1. Arabic numeral prefix to each name is a unique number for each individual.
2. Names with a plus + prefix means that the name will appear again in later generations, in reference to their children.
3. Roman numeral prefix is the order of birth for siblings.
4. Small superscripted numbers indicate generational level of individuals.
5. Parenthetized names after emboldened name are forebears or bloodline of individual.
6. All years shown are estimated date of births (DOB) when prefixed by Abt (about).
7. Where full names are unknown, XXX are used.

We enjoin the clan members to make corrections/updates as may deem fit, such as filling in the correct names, DOBs, additional children and/or siblings, preferred deletions, etc. If sent back to <ferngil@aol.com>, we will update the database and reissue a new printout.

Last portion is the index which lists all the members alphabetically, and their corresponding reference number.
