

MONDRAGON FAMILY TREE

Ver 1 – 21 July 2011

of San Carlos City, Negros Occidental

which includes members from other clans such as:

- Abad
- Alfaro
- Rigor
- etc

INTRODUCTION:

This is one of the standard print-outs of the Family Tree Maker Genealogical Software residing in our computer.

The print-out is generated from data we encoded into the database from the PDF file sent by Noel Mondragon. These were merged with data gathered over the years from other sources, which among others, includes hardcopy and electronic copies of family trees volunteered for the project, public domain sources on the internet, interviews, research, etc.

Noteworthy in this database is that all individuals have been assigned a birth year based on educated guesses and interpolation. Where an exact year is known, the immediate siblings, parent and children are adjusted accordingly.

The database is a genealogical project to trace the inter-relational linkages between major families by bloodline and marriage, starting originally from Tanjay, Neg Or, but now extending to all over wherever families have settled. There are now over 21,000 individuals in the database dating as far back to the year 1720.

This Mondragon Family Tree is but a small portion, and is one among almost a hundred Family Trees in the database. Other Family Tree printouts extend to almost 200 pages. And from what I understand from Noel Mondragon in his email accompanying the PDF file, is still far from complete.

All the other family trees can be viewed (simplified format) on the internet via the Tanjay website

<http://tanjaycity.org>

which has a link to Tribalpages, the genealogical website where we posted just the basic data..

The format of the print-out is as follows:

1. Arabic numeral prefix to each name is a unique number for each individual.
2. Names with a plus + prefix means that the name will appear again in later generations, in reference to their children.
3. Roman numeral prefix is the order of birth for siblings.

4. Small superscripted numbers indicate generational level of individuals.
5. Parenthetized names after emboldened name are forebears or bloodline of individual.
6. All years shown are estimated date of births (DOB) when prefixed by Abt (about).
7. Where full names are unknown, XXX are used.

We enjoin the clan members to make corrections/updates as may deem fit, such as filling in the correct names, DOBs, additional children and/or siblings, preferred deletions, etc. If sent back to Noel Mondragon <meowlife@hotmail.com>, we will coordinate in updating the database and reissue a new printout.

Last portion is the index which lists all the members alphabetically, and their corresponding reference number.
